

## Club One Air Becomes the First Aircraft Operator in India to get the Wyvern Certification

### Receives **the coveted** Certification for Outstanding Aviation Services

**Someday XX November, 2005:** Club One Air, Asia's first aircraft fractional ownership company today received one of the aviation industry's highest commendation for aircraft and service quality, the Wyvern Certification from the Luton, UK based aviation consulting, quality and audit firm Wyvern Consulting Ltd.

Considered as one of the industry's most stringent certifications, the Wyvern Certification is based on an on-site safety audit, measuring charter and FO operators against a benchmark called the Wyvern Operating Standards, an enhanced set of safety measurement criteria developed over the years in cooperation with a panel of representatives from the most sophisticated and demanding corporate flight departments in the world.

The stringent certification process set in place by Wyvern Consulting represents a robust template of meaningful expectations for safe flight catering exclusively to VIP & VVIP aircraft operations for CEO's and senior management of Fortune 500® companies, senior military delegates, heads of state, and world leaders.

Recognizing Club One Air for its outstanding ground services, timely arrivals and departures, low transit times at airports, world class in flight services, stringent aircraft maintenance schedules, high air-safety standards and disciplined cockpit crew, Wyvern Consulting now places India's first fractional ownership company into the elite list of top-notch aviation companies worldwide.

Wyvern recommended aircraft operators today are appreciated and respected for a remarkably low accident, incident and fatality rate. Statistics reveal that of all 754 fatalities that were recorded from 1991 to 2003 by executive jet operators, **none (0.00%)** involved Wyvern recommended aircraft.

Commenting on Club One Air receiving the globally recognized Wyvern Certification, Mr. Manav Singh, Club One Air's Managing Director had this to say, "Since Club One Air commenced Fractional Ownership operations in the South Asia region we have always believed in maintaining the highest possible standard for air-safety and aircraft operations. The Wyvern Certification further substantiates our commitment for offering the best possible service to customers".

Club one Air operates the Cessna® Citation range of executive business jets for their light and medium category aircraft. The aircraft offer excellent handling characteristics in Indian weather conditions and have a short take off capability. Club One Air is also evaluating purchase of large jets capable of intercontinental flights. Club One air currently has a fleet of 5 Cessna Citation business jets, and has on order another five, which will be delivered by the end of 2005. These Jets have a seating capacity between seven to eight passengers.
